

EVANS OTIENO OMBATO

Systems Administrator | ICT Lecturer / Trainer

evansombato@gmail.com • +254 726638763 • Nakuru, Kenya

otienoelvans.github.io/my-portfolio

PROFESSIONAL SUMMARY

Versatile ICT professional, trainer and technology enthusiast with skills in web development, networking, systems administration, databases, and digital solutions. Experienced in delivering competency training across TVET and medical-related programs. Passionate about technology, innovation, and empowering learners with practical skills.

CORE COMPETENCIES

TECHNICAL SKILLS

- Systems Administration (Windows, Linux)
- Network Design & Configuration
- ERP & CRM Systems Management
- Git & GitHub
- Data Backup, Recovery & Disaster Recovery
- Information Systems Management
- IT Asset & Inventory Management
- ICT Policy & Data Protection Compliance
- Hardware & Software Troubleshooting
- Database Administration & Data Integrity
- Security Monitoring & Systems Integration

PROFESSIONAL / TRAINING SKILLS

- Training & Lecturing
- CBET Lesson Design & Curriculum Development
- TVET-CDACC Assessment & Grading Standards
- Classroom & Laboratory Management
- Mentorship & Academic Support
- Performance Evaluation & Reporting
- Technical Communication
- Problem Solving & Team Collaboration

KEY ACHIEVEMENTS

- Sustained near-uninterrupted network uptime across the NCHSM campus, covering 50 workstations and 2 computer labs, through proactive infrastructure monitoring and maintenance.
- Reduced average technical-support resolution time by promptly triaging and resolving end-user hardware and software issues for staff and students.
- Led the introduction and adoption of an advanced digital school management system supporting both TVET and medical programmes.
- Designed and delivered CDACC-aligned assessments for 100+ students, strengthening grading accuracy and examination integrity.
- Strengthened data integrity for institutional student and health records through rigorous verification protocols, reducing duplication and transcription errors during digitisation.
- Consistently improved learner practical competencies through structured, competency-based lesson delivery and one-on-one mentorship.

WORK EXPERIENCE

Systems Administrator & Trainer

Jan 2025 – Present

Nakuru College of Health Sciences & Management | Nakuru, Kenya

SYSTEMS ADMINISTRATION

- Maintain workstations, network devices and institutional applications, sustaining near-uninterrupted uptime across departments.
- Configure, secure and maintain network infrastructure (routers, switches, wireless access points) across teaching, administrative and clinical-training areas.
- Manage and support the School Management System and Digital Student Portal, ensuring smooth academic and administrative operations.
- Led the introduction and adoption of an advanced digital school management system designed to support both TVET and medical programmes.
- Provide first- and second-line technical support and maintain ICT assets, equipment and procurement records.

LECTURING / TRAINING

- Design and deliver structured lessons in Digital Literacy, Computer Essentials, Computer Operations, Computer Networking and Health Records Database Management to 50+ students across multiple cohorts.
- Develop curricula, schemes of work, lesson plans and learning materials aligned to TVET-CDACC competency-based standards.
- Design assessments aligned with TVET-CDACC grading criteria and coordinate result-verification processes to guarantee data integrity.
- Mentor learners and enforce ICT acceptable-use and data-confidentiality practices in line with the Kenya Data Protection Act, 2019.

ICT Trainer & Systems Administrator

May 2024 – Dec 2024

Elgon View College – Migori Campus | Migori, Kenya

SYSTEMS ADMINISTRATION

- Configured, deployed and maintained campus network infrastructure (routers, switches, access points) for computer laboratories and administrative offices.
- Administered computer laboratory systems — routine maintenance, software installation, updates and security patching across all workstations.
- Monitored system performance and security settings, proactively identifying and resolving vulnerabilities and supporting infrastructure upgrades.
- Managed equipment procurement requirements and operational support records.

LECTURING / TRAINING

- Trained students in advanced computer applications, programming fundamentals (C, C++), software development principles and networking concepts.
- Developed detailed training materials, lesson plans and varied, competency-based assessment methods.
- Managed the full lifecycle of examination administration, from paper preparation and invigilation support to digital result entry and archiving.

Computer Lab Attendant & Assistant IT Trainer

Sep 2023 – Apr 2024

Rongo University (Student Work-Study Programme) | Rongo, Kenya

SYSTEMS ADMINISTRATION

- Oversaw day-to-day operation and readiness of laboratory computer systems ahead of scheduled classes and examinations.
- Diagnosed and resolved hardware and software faults, escalating complex issues to senior ICT staff where necessary.
- Maintained network access, equipment-condition records and laboratory usage logs.

LECTURING / TRAINING

- Assisted in facilitating practical computer application and IT systems training sessions for students and staff.
- Provided peer mentorship and technical guidance to fellow students during coursework and lab assignments.

ICT Clerk

Jul 2022 – Aug 2022

Independent Electoral and Boundaries Commission (IEBC) | Migori, Kenya

- Provided first-level ICT support to the Returning Officer at the tallying centre, resolving technical hitches and restoring services quickly.
- Prepared, configured and tested KIEMS kits for election operations, ensuring they remained fully charged and functional.
- Performed data backup and restoration on KIEMS kits and supported Presiding/Deputy Presiding Officers and clerks in liaison with the CICT.
- Participated in training Support Electoral Trainers, Presiding Officers, Deputy Presiding Officers and clerks.

EDUCATION

Bachelor of Science in Computer Science

2019 – 2024

Rongo University | Second Class Honours (Upper Division)

Kenya Certificate of Secondary Education (KCSE)

2015 – 2018

Amaiko SDA Secondary School

Kenya Certificate of Primary Education (KCPE)

2007 – 2013

Matagaro Primary School

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **Continuous Professional Development** — CBET Delivery Training
- **Basics of Microsoft Power BI** - Completed June 2026
- **TVET-CDACC Assessment and Grading Standards** - Institutional Training
- **Google IT Support Professional Certificate** - Ongoing

NOTABLE PROJECTS & INITIATIVES

SOFTWARE & SYSTEMS PROJECTS

- School Management System — a system for managing student records, class scheduling and day-to-day administrative workflows within an academic institution (nchsm.co.ke).
- POS System — a point-of-sale system built to handle sales transactions, receipts and stock tracking for a retail/business setting. (Ongoing Project)
- Excel Student Records System (NCHSM) — an Excel-based student database with auto-updating dashboards, KPI tiles, a searchable index and navigation across 16 course sheets.
- Inventory Management System (NCHSM) — an Excel-based ICT inventory system covering device registers, location views, maintenance logs, warranty tracking and software licences across 13 linked sheets.

INSTITUTIONAL CASE STUDIES

- Students Records Digital Database Rollout (NCHSM) — supported the transition from file-based to structured digital records, introducing data-entry and verification procedures and guiding staff on proper system use; improved accessibility, accuracy and staff capacity.
- Examinations Coordination (NCHSM & Elgon View College) — coordinated end-to-end assessment logistics across multiple programmes and cohorts, cross-checking candidate lists and result summaries; delivered consistently accurate, on-time examination cycles.
- Campus Network Stabilisation Initiative (NCHSM) — audited network infrastructure, traced connectivity gaps, and reconfigured routers/switches/access points; improved coverage, stability and speed campus-wide.

PROFESSIONAL STRENGTHS

- Dual competence in ICT systems administration and classroom instruction, moving seamlessly between technical operations and academic delivery.
- Strong attention to detail and data accuracy, developed through examinations coordination and health-records database management.
- Effective communicator able to translate technical concepts into accessible, student-friendly instruction.
- Reliable under pressure, with a track record of maintaining system uptime and meeting examination deadlines simultaneously.
- Strong problem-solving and troubleshooting skills across technical and academic environments.
